We want as many people as possible to be able to use this website. For example, that means you should be able to:

Change colours, contrast levels and fonts.

Zoom in up to 300% without the text spilling off the screen.

Navigate most of the website using just a keyboard.

Listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)

We've also made the website text as simple as possible to understand.

Compliance status - Partially compliant.

This website is partially compliant with the Web Content Accessibility Guidelines version 2.2 AA standard, due to the non-compliances listed below.

Non-accessible content.

a) Non-compliance with the accessibility regulations

Any older PDF documents may not be fully accessible to screen reader software.

The accessibility regulations do not require us to fix PDFs or other documents published before 23 September 2018 if they're not essential to providing our services. For example, we do not plan to fix meeting minutes and agendas dating back to before September 2018.

Any new PDFs or Word documents we publish will meet accessibility standards.

PDFs from external forces may not be accessible.

b) Some information from outside sources may not be compliant because we cannot ensure the quality of these external contributors. Use the contact information to report the issue.

c) Alt image tags- may not be used in external sourced documents. This fails WCAG 2.2 success criterion 1.1.1 (non-text content). Use the contact information to report the issue.
